Subject: Opposition to permit # SHR16-0083

Follow Up Flag: Follow up
Flag Status: Completed

Our building of 21 units is directly south of Carillon Point. Anytime construction work goes on at the point, we get an extremely annoying amount of dust. It covers everything -- vertical windows included. Because seaplanes emit a lot of exhaust fumes, and because of the obvious noise from departing airplanes, all our occupants, especially those 10 units on the north side strenuously oppose having seaplanes leaving and arriving at Carillon Point.

Thank you for your consideration.
